

(1) Attention:
holding procedure within Swiss airspace affecting these sectors of Italian FIR might be in progress between FL160 and FL190. Information on effective activity can be requested directly to Padova ACC/FIC or Zurich ACC/FIC.

Area within Milano FIR classified "D" from FL145 (excluded) up to FL195

North of the line, due to terrain feature constraints, radiocoverage in class "C" airspace below FL150 is incomplete. (see ENR 2.1.1.1 para 4.3)
